Subject: Your 165 litres fridge purchased in 1981 working without any repairs

Sir

I purchased one 165 liters fridge in 1981 and the fridge is still working with proper cooling. Its sealed system is still untouched and I wish you make such fridges in future to get full customer satisfaction. The fridge was purchased in Varanasi and was transported to Ahmedabad (my the then working place) in 1987 by train cargo. Later on my transfer to Mumbai in 1997 it was transported by truck to Mumbai.

Though it became a secondary fridge due to its capacity as we added one more Wirlpool fridge but that could not even service for 6 years properly.

If you want to inspect or need it for your advertisement it can be planned.

Regards

Sanjay Kumar Singh
